

The Outcomes Framework

Di Riley
May 2012

The Outcomes Framework

- Public Health Outcomes Framework
- NHS Outcomes Framework

What are they?

- sets out the outcomes and indicators used to hold NHS Commissioning Board to account for its outcomes delivered through commissioning health services from 2012/13
- sets direction of travel in the journey for improving outcomes
- opportunity for the NHS to understand what an NHS focussed on outcomes means for individuals, organisations and health economies

The Public Health Outcomes Framework

2 overarching outcomes

- Increased healthy life expectancy (including health quality, as well as length of life)
- Reduced differences in life expectancy (through improvements in the most disadvantaged communities)

The Public Health Outcomes Framework

4 Domains

- Improving the wider determinants of health
- Health Improvement
- Health Protection
- Improving public health & reducing premature mortality

The Public Health Outcomes Framework

Indicators

- Health Improvement
 - Reducing excess weight in adults
 - Reducing smoking prevalence in adults
 - Earlier diagnosis
 - Cancer screening coverage

The Public Health Outcomes Framework

Indicators

- Health Protection
 - Population vaccination coverage (HPV)
- Improving public health & reducing premature mortality
 - Reducing cancer mortality

The NHS Outcomes Framework

5 Domains

- Reducing mortality & improving survival
- Improving Quality of Life
- Enhancing recovery
- Improving patient experience
- Improving safety

The NHS Outcomes Framework

Domain 1

- Reducing mortality & improving survival
 - NAEDI
 - Awareness campaigns
 - Improving access to diagnostics
 - Raising GP awareness
 - Better treatment

The NHS Outcomes Framework

Domain 2

- Improving Quality of Life
 - Cancer survivorship
 - Vision document 2011
 - PROMS (Patient reported outcomes measures)
 - 2011 pilot programme in breast, colorectal, prostate & lymphoma

The NHS Outcomes Framework

Domain 3

- Enhancing recovery
 - Initially colorectal, gynae, urology
 - Summit April 30th 2012
 - <http://www.improvement.nhs.uk/enhancedrecovery2/events/summit2012.aspx>

The NHS Outcomes Framework

Domain 4

- Improving patient experience
 - Cancer Patient Experience surveys
 - 2011/12 reports due June 2012
 - Chemo module June 2012

The NHS Outcomes Framework

Domain 5

- Improving safety
 - Measuring safety (eg 30 day post op mortality)
 - Ensuring safety eg in Chemotherapy – eg acute oncology
 - Peer Review
