

Service Profiles

Nicky Coombes
SSCRG Programme manager

Profiles - Rationale

- Service profiles:
 - Benchmark and assess
 - NHS Trust / multi-disciplinary team (MDT) based
 - Assist clinical teams to reflect on outcomes
 - Assist the commissioners of cancer services to
 - *understand the variation across the MDT's (local service) for both patient experience and patient care.*
 - Indicators included have been
 - *discussed with commissioners and MDT's as being important and form the basis for objective dialogue about clinical practice and service delivery.*

Profiles - Process

- Service profiles:
 - First developed for Breast and Colorectal profiles (published Dec 2011, Feb 2013, June 2013)
 - Based on latest nationally available data
 - cancer registration, CWT, NCDR, CPES, HES, Peer Review, National Audit
 - Part generic, part specialist indicators.
 - Indicators incorporate Clinical Lines of Enquiry

Profiles - structure

NCIN / PHE KIT West
Midlands team (*formally
West Midlands Cancer
Intelligence Unit*) co-

Size – no. patients diagnosed

**Patient demographics
(including stage/PS)**

Specialist team – Peer Review concerns and CNS coverage

Throughput and pathology – patient breakdown

Waiting times performance and conversion/detection rates

Clinical practice

Outcomes and recovery

Patient Experience

Profiles – detail (1)

Size	G1	Number of new cases (invasive and non-invasive) managed per year, 2012
	G2	Number of newly diagnosed (invasive and non-invasive) patients per year, 2011
Demographics (based on newly diagnosed patients, 2010)	G2	Patients (from #G2) aged 70+
	G4	Patients (from #G2) with recorded ethnicity
	G5	Patients (from #G4) with recorded ethnicity which is not White-British
	G6	Patients (from #G2) who are Income Deprived (1)
	G7	Male patients (from #G2)
	BR1	Patients (invasive from #G2) with a nationally registered Nottingham Prognostic Index
	BR2	Patients (from #BR1) with nationally registered NPI in excellent or good prognostic groups
	G8	Patients with Charlson co-morbidity >0 (to be included in later profile)

Profiles - detail 2

Specialist Team	G8	Peer review: does the specialist team have full membership? (2)
	G9	Peer review: proportion of peer review indicators met
	G10	Peer review: are there immediate risks? (3)
	G11	Peer review: are there serious concerns? (3)
	G12	CPES (4): Patients surveyed and % reporting being given name of a CNS (5,6)
	BR4	Surgeons not managing 30+ cases per year
Throughput	G13	Number of urgent GP referrals for suspected cancer
	BR5	Cases (from #G2) managed at this trust with invasive cancer
	BR6	Cases (from #G2) managed at this trust with non-invasive cancer
	G14	Estimated proportion of tumours with emergency presentations [experimental]
	BR7	Newly diagnosed patients (from #G2) referred via the screening service
Waiting times	G15	Q2 2012/13: Urgent GP referral for suspected cancer seen within 2 weeks
	G16	Q2 2012/13: Treatment within 62 days of urgent GP referral for suspected cancer
	G17	Urgent GP referrals for suspected cancer diagnosed with cancer [experimental]
	G18	Cases treated that are urgent GP referrals with suspected cancer [experimental]
	G19	Q2 2012/13: First treatment began within 31 days of decision to treat
	GN1 (previously BR8)	Q2 2012/13: Urgent breast symptom referrals (cancer not suspected) seen in 2 wks

Profiles – detail (3)

Practice	BR9	Surgical cases (from #BR12) receiving sentinel lymph node biopsy (invasive only)
	BR10	Surgeries which are day case or one overnight stay (all cases from #G2)
	BR11	Mastectomy procedures (from #BR13) with immediate reconstruction (invasive only)
	BR12	Major surgeries in invasive breast cancer (from #BR5) (7)
	BR13	Surgical cases (from #BR12) receiving mastectomy (invasive only)
	BR14	Median length of stay (days) for elective surgical admissions (from #G2, all cases)
	BR15	Mean length of stay (days) for elective surgical admissions (from #G2, all cases)
Outcomes and Recovery	BR16	Surgical cases (from #BR12) readmitted as an emergency within 28 days
	BR17	Patients treated surviving at one year (to be included in later profile)
Patient Experience - CPES (4)	G22	Patients surveyed & % reporting always being treated with respect & dignity (6)
	G23	Number of survey questions and % of those questions scoring red(8)
	G24	Number of survey questions and % of those questions scoring green(8)

Profiles development

- **2013/2014**
 - Existing profiles converted to web format – Sept 2013
 - 4 further service profiles released (OG, Sarcoma, Gynaecology, Head & Neck) – Sept 2013
 - CCG profiles released – Dec 2013

Profiles development

■ 2014/2015

- Develop 4 further service profiles (Urology, Haematology, Skin, CNS) – Sept 2014
- Create web profile for Public view (Radiotherapy) – March 2014
- Create Tartan Rug – June 2014
- Create Comparison profile – June 2014
- Update existing Service profiles – Dec 2014

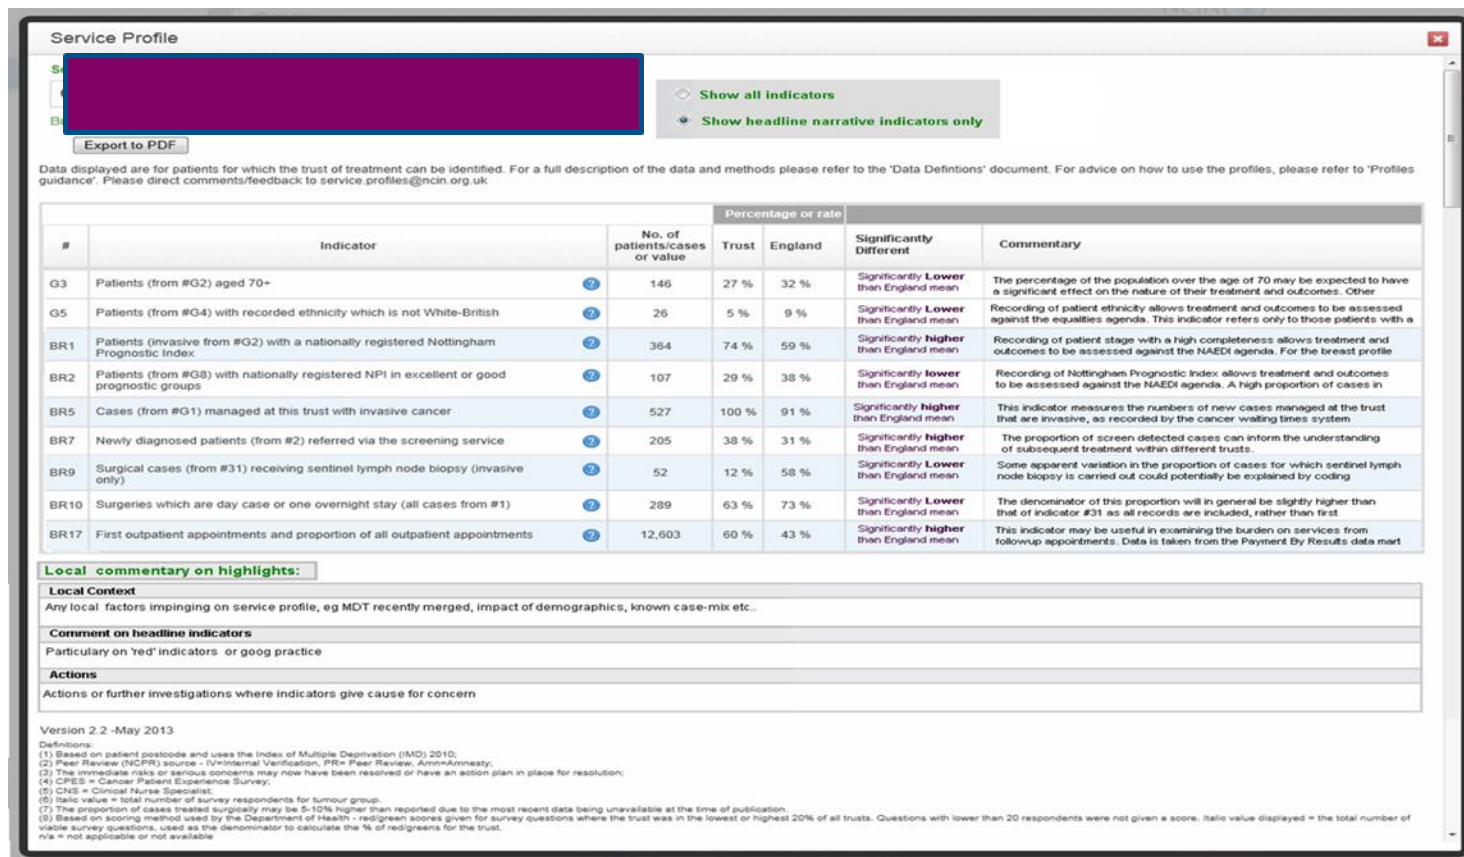

Profiles development

- Need for information output ('what does this mean for x'?) that meets needs of stakeholders
 - National Director for Cancer
 - Providers
 - Clinical teams
 - Network Groups
 - NPRP
 - SCNs, CCGs etc
 - Public/patients

Profiles development

- Information output to include;
 - Trends over 3 years
 - Trends at each Service Profile update
 - Headlines
 - Narrative

Headline Narrative report

Profiles development

- In tandem with NCIN scoping exercise for SCNs
- Must dovetail with development of CRG indicators
- Rationalise with other information provision
- Must be relevant to NPR – clinical engagement, clinical narrative, reviewer reports, public/patients

Cancer Outcomes Conference
9 & 10 June 2014
Hilton Birmingham Metropole

ukiacr
United Kingdom and Ireland
Association of
Cancer Registries

NCIN
national cancer
intelligence network

Using information to improve quality & choice

The Cancer Outcomes Conference 2014 will explore the ‘power of information’ both locally and nationally.

It will examine how UK-wide cancer registration data and other health related datasets are being exploited to reduce cancer incidence, mortality and morbidity.

To find out more, visit www.ncin.org.uk/conference
