

# The new commissioning framework and the metrics to support commissioning

# Geography of NHS England

- 10 Specialised Commissioning Hubs
- 12 Strategic Clinical Network Areas
- 27 Area Teams
- 211 CCGs

# Local Area Teams

- 27 Local Area Teams
- Core functions;
  - Primary Care,
  - Public Health including CCG development and assurance, and quality and safety.
- 10 LATs lead on contracting specialised services.
  - Setting priorities and strategic direction is done nationally
  - All contracting is through the ten LATs.

# Clinical Reference Groups (CRGs)

- Specialised services directly commissioned by NHS England
- Develop products for effective commissioning of specialised services.
- Clinical and patient led development and delivery of commissioning products.
- 'Core' set of products - defined timeline.

# Role of CRG Members

- Expert advice and guidance to develop and shape products
- Communication with wider professional groups
- Development and completion of specialised services during 2013/14.
- Horizon scanning, identifying and short-listing potential innovations within the relevant service area.
- Advice to CCGs

# The Products

- **Scope** – defined and quantified
- **Service Specification** - key requirements of service to be commissioned from the provider.
- **Commissioning Policy** –healthcare treatment commissioned by NHS for a defined patient group with a particular illness within a defined financial year

# EVERYONE COUNTS:

PLANNING FOR PATIENTS 2014/15 TO 2018/19

be delivered. Maximising quality, effectiveness and efficiency means working at volume and connecting actively to research and teaching. Specialised services are currently being delivered out of too many sites, with too much variety in quality and at too high a cost in some places. Through NHS England's direct commissioning we shall be looking to reduce significantly the number of centres providing NHS specialised services, require standards of care to be applied consistently across England and maximise synergy from research and learning. Our strategy for specialised services is still in the early stages of development, but we can foresee a concentration of expertise in some 15 to 30 centres for most aspects of specialised care. Academic Health Science Networks

# NHS England

- Task force on Specialist Commissioning
  - Future of CRGs
- “Refresh” of Cancer Strategy – 5YFV
- Different models – one size does not fit all
- Political Imperatives
  - 31 / 62 day targets
  - Data transparency
  - NHS Choices – “My NHS”

# Task Force Workstreams

1. Strategic Projects
2. Strategy
- 3. Clinically Driven Change**
4. Operational Leadership
5. Commercial and Technical Delivery
6. Strong Financial Control
7. Analytics

# CCG Outcomes Indicator Set 2014/15

- Early detection
- Diagnosis via emergency routes
- Record of stage at diagnosis
- Under 75 mortality from cancer
- One year survival

# Future

- NCIN to provide data for CRG / CCG commissioning
- ? Integration of SSCRG and CRG
- Service profiles
