

South East Coast Strategic Clinical Networks

NCIN Cancer Roadshows

Welcome

21st & 22nd October 2015

Welcome

The aim of the road show is to ensure that commissioners, clinicians, and data managers are fully aware of the range of cancer data being collected, the ways in which these data are fed back, and the consequent opportunities for improving cancer outcomes.

Format of the session

Part One Presentations which will cover

- An overview of cancer informatics in the 'new' NHS
- Updates on what cancer data are collected and who by
- The various tools available for data analysis
- The way in which clinicians and commissioners are using data
- The local area context - issues and challenges

Part Two is an interactive 'café' style session with opportunities for delegates to watch demonstrations of some of the tools and datasets covered in Part One, sign up to access the data, and have any questions answered
