

National Cancer Dataset Review –
Cancer Site:
SQUAMOUS CELL CARCINOMA

Age

Nos

Sex

M, F

Postcode

Text, Nos

- Size of tumour
- Clinical margin
- Def excision – Primary care – gp
 - » CATS – GP, DERM, OTHER
 - » SECONDARY CARE – GP, DERM, OTHER

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|----------------|-------------------------------------|----------|--|--|
| High Risk Site | Lip, ear, perineum, sole of foot | Yes / No | | |
|----------------|-------------------------------------|----------|--|--|

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|----------------|--------|----------|--|--|
| High Risk Size | > =2cm | Yes / No | | |
|----------------|--------|----------|--|--|

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|--|-----------------------------|----------------------|-----------------------------|
| Grade | Poorly differentiated, moderately differentiated, well-differentiated | P, M, W | | |

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|---------------------|------|----------|--|--|
| High Risk Thickness | ≥4mm | Yes / No | | |
|---------------------|------|----------|--|--|

Data Item Name

Description

Format / Permissible Values

Existing Collection?

Justification for Inclusion

Subcutaneous fat
involvement

Yes / No

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|--------------------|-----------------------|----------|--|--|
| High Risk Subtypes | Spindle, acantholytic | Yes / No | | |
|--------------------|-----------------------|----------|--|--|

Data Item Name

Description

Format / Permissible Values

Existing Collection?

Justification for Inclusion

SCC arising in
radiation,
thermal injury, etc

Yes / No

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|------------------|--|-----------------------------|----------------------|-----------------------------|
| Genetic Syndrome | EG Gorlin's, Xeroderma pigmentosum/other | G, X, O | | |

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|------------------|------------------------|------|--|--|
| Immunosuppressed | EG Transplant patient, | T, O | | |
|------------------|------------------------|------|--|--|

| | | | | |
|------------------|---------------------------------------|------|--|--|
| Immunosuppressed | EG Transplant patient, renal/other | T, O | | |
|------------------|---------------------------------------|------|--|--|

Data Item Name

Description

Format / Permissible Values

Existing Collection?

Justification for Inclusion

Recurrent tumour

Yes / No

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|----------------------|-----------|---------------------------------------|-------------|--|
| Margins – peripheral | High risk | Measure to nearest 0.5mm up to 6mm | Distance mm | |
|----------------------|-----------|---------------------------------------|-------------|--|

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|----------------|--|-------------|--|--|
| Margins – deep | High risk Measure to nearest 0.5mm up to 6mm | Distance mm | | |
|----------------|--|-------------|--|--|

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|--------------------|----------------------|---------|--|--|
| Margins – low risk | Involved, borderline | I, B, C | | |
|--------------------|----------------------|---------|--|--|

| | | | | |
|--------------------|----------------------|---------|--|--|
| Margins – low risk | Involved, borderline | I, B, C | | |
| | <1mm, Clear >1mm | | | |

| | | | | |
|--------------------|----------------------|---------|--|--|
| Margins – low risk | Involved, borderline | I, B, C | | |
| | <1mm, Clear >1mm | | | |

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|-------------|-----------------------|----------|--|--|
| TNM Staging | Lymphatic involvement | Yes / No | | |
|-------------|-----------------------|----------|--|--|

| Data Item Name | Description | Format / Permissible Values | Existing Collection? | Justification for Inclusion |
|----------------|-------------|-----------------------------|----------------------|-----------------------------|
|----------------|-------------|-----------------------------|----------------------|-----------------------------|

| | | | | |
|-------------|--------------------|----------|--|--|
| TNM Staging | Distant metastasis | Yes / No | | |
|-------------|--------------------|----------|--|--|
